H.O.I.S.T. CHARITIES:

Children's Assessment Center

Since the inception of H.O.I.S.T. , the Children's Assessment Center was selected and has been the primary charity supported by this great annual event. The majority of The Center's funds come from private donations from organizations like ours. The mission of the Children's Assessment Center is to provide a professional, compassionate, and coordinated approach to the treatment of sexually abused children and their families and to serve as an advocate for all children in the community. The Children's Assessment Center (CAC) provides a safe haven to sexually abused children and their families - a place where they can receive the kind of care and treatment they

so richly deserve. The CAC employs an extraordinarily effective multidisciplinary team approach in the prevention, assessment, investigation, referral for prosecution and treatment of child sexual abuse. Their goal is to promote the complete healing of child victims of sexual abuse and their families.

The CAC is an accredited member of the National Children's Alliance, part of a national movement to create child-friendly intervention systems for sexually abused children, and a member of the Children's Advocacy Centers of Texas. The

CAC is also one of the largest advocacy centers of its kind in the nation.

For more information go to www.cachouston.org.

Combat Marine Outdoors

Combat Marine Outdoors started in 2005 after visiting combat wounded Marines and Sailors from the 1st Marine Division at Brooke Army Medical Center for several months. The Marines, Sailors and service members there needed an opportunity to get away from the hospital, in an environment of friendship, camaraderie, and fellowship with fellow Marines in order to accelerate their recovery from the traumatic injuries they sustained in combat. In many cases, these service members did not want to leave the confines of the hospital, but it was (and is) crucial to begin to re-inculcate back into society. In every case, the Marines and other service members who participated in the outings felt an enormous sense of accomplishment and a new sense of hope and belonging once the trip was completed.

While the hunting and fishing aspects of the program are important, they are merely a vehicle to demonstrate to these heroes that there are tens of thousands of patriotic Americans who truly care about these brave warriors and are willing to show their appreciation and support by providing once-in-a-lifetime adventures in some of the most incredible places in the world. The camaraderie, friendship and fellowship associated with each outing have had an incredible healing property, and in many cases, were a turning point in the emotional recovery of these Marines, Sailors and service members. We continue to provide life-changing outdoor adventures to these brave heroes and we have approximately 50 ranches who actively participate in the program. To date, we have taken over 1000 combat wounded on the adventure of a lifetime..

For more information go to www.combatmarineoutdoors.org.
